## DETAILED ACTION

### *Election/Restrictions*

1. Applicant's election without traverse of claims 9-11, and 20 in the reply filed on 05/25/06 is acknowledged.

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 9,20 are rejected under 35 U.S.C. 102(e) as being anticipated by LGGULDEN (US 2001/0043686).

Regarding claim 9, LGGULDEN teaches a method of controlling an appliance comprising: setting with a mobile computing device a default user preference for each human sensory parameter; and applying with the mobile computing device the default user preference to each appliance (see sections [0014,0022,0030-0033]; also see figs. 1,2,5,6).

Regarding claim 20, LGGULDEN teaches a computer-readable medium having computer-executable instructions for performing a method of controlling an appliance, the method comprising: setting with the mobile computing device a default user preference for each human sensory parameter; and applying with the mobile computing device the default user preference to each appliance (see sections [0014,0022,0030-0033]; also see figs. 1,2,5,6).

***Claim Rejections - 35 USC § 103***

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 10,11 are rejected under 35 U.S.C. 103(a) as being unpatentable over LGGULDEN (US 2001/0043686).

Regarding claim 10, since LGGULDEN teaches transferring of user's preferences from a portable device to appliances such as television, video recorder, audio and video entertainment system, it is obvious that LGGULDEN is capable of transferring user's preferences including maximum and minimum volume, and equalizer setting for the

purpose of giving users options to conveniently preset their desired preferences to save time each time he/she uses the system.

Regarding claim 10, since LGGULDEN teaches transferring of user's preferences from a portable device to appliances such as television, video recorder, audio and video entertainment system, it is obvious that LGGULDEN is capable of transferring user's preferences including color profile and light intensity setting for the purpose of giving users options to conveniently preset their desired preferences to save time each time he/she uses the system.
